

Every concert is an experience

Oesch's die Dritten are going on tour again in 2025

Handmade live music and pure enjoyment - that's Oesch's die Dritten.

With some 1900 performances, Switzerland's most popular folk music sextet has been touring successfully as a family band for more than 26 years. Their energetic and entertaining live concerts have become their distinctive trademark. Oesch's die Dritten are inspiring and act as musical bridge builders and ambassadors of joy of life.

In 2025, the group from the Bernese Oberland will go on tour across Switzerland with a new live program. The motto "händmade" stands for handmade and unique Oesch music as well as an energetic and memorable concert experience.
